

BENEFITS

Regardless of where we are located, we're not meant to live our lives in isolation! God created us to live life in community with Him and with like-minded people around us. We are designed to connect and experience:

- The joy of knowing we are obedient to His mandate for the church to "go."
- The move of God in the lives of people throughout ALL the world!
- Make new acquaintances within the Body of Christ in other places.
- Building community by building relationships locally and around the world.
